---

Thanks for the workplan, Christian.

Since FMI wants to accomplish this work soon as mentioned, MMD requests that FMI provide the following:

1. Figure that shows the approximate area for the borrow area described west of Chino Tailing Pond 1.
2. Table with the specific pre-approved seed mix FMI mentions in the workplan.
3. Add clarification to Figure 1 to show the anticipated access route(s) for truck transport of Gila Conglomerate directly on the tailings impoundment. Or will the supplemental material be staged near the tailings impoundment then placed?

MMD will check-in with NMED on this workplan.

Kevin,

Attached is a brief workplan for the Deming Tailings Impoundment. Upon agency approval, Chino would like to start this work as soon as possible. Please let us know if you have any questions or comments related to this work plan.

Much Appreciated,  
Christian Krueger
