RE: Minimal Impact Exploration Permit Application Determined Administratively Complete, Permit No. GR094EM Alhambra Project, Grant County, NM

Dear Mr. Gorski,

The New Mexico Mining and Minerals Division (“MMD”) has received a Minimal Impact Exploration Permit Application (“Application”) submitted on April 18, 2024 by Standard Silver Corp. titled Alhambra Project. The application proposes to use existing roads and no vehicular overland travel to minimize disturbance of Private Property (75 holes and 9 pads) and United States Forest Service Property road usage and maintenance within the boundaries of claim numbers identified in the application for exploration located approximately 13 miles west of Silver City in Grant County, New Mexico. Because Standard Silver Corp has agreed not to exceed 5 acres of total disturbance and/or exceed excavating 1000 cubic yards at all times, MMD is processing this application as a minimal impact exploration permit pursuant to §19.10.3.302 (A) NMAC.

MMD is hereby notifying you that it has determined that the proposed Minimal Impact Exploration Permit Application for the Alhambra Project, Permit No. GR094EM is administratively complete pursuant to §19.10.3.302 NMAC. MMD will now distribute the application to other reviewing state, federal, and tribal agencies to begin technically reviewing the application pursuant to 19.10.3.302 (G) NMAC. If you have any questions, please contact me at (505) 490-0967 or via e-mail at alaina.osimowicz@emnrd.nm.gov

Sincerely,

Alaina Osimowicz, Permit Lead
Mining Act Reclamation Program (MARF)/MMD
