**RE: Minimal Impact Exploration Permit Application Determined Administratively Complete
Permit No. CI019EM, North Cebolleta Exploration Project in Cibola County, NM**

Dear Mr. Thompson and Mr. Newcomer,

Pursuant to §19.10.3.302 NMAC, the New Mexico Mining and Minerals Division has determined that a Minimal Impact Exploration Permit Application ("application") submitted on March 18, 2024 is administratively complete. The application was submitted by Cibola Resources for its North Cebolleta Uranium Exploration Project and proposes to disturb a total of up to 4.3 acres of Cebolleta Land Grant property (25 drill holes on 25 drill pads) within the boundaries of claim numbers identified in the application for exploration located approximately 4 miles southeast of Seboyeta, NM off of Marquez road in Cibola County New Mexico. Cibola Resources has agreed not to exceed 5 acres of total disturbance at all times between interrelated projects CI018EM and CI019EM, as such, MMD is processing this application as a minimal impact exploration permit pursuant to §19.10.3.302 (A) NMAC.

MMD is hereby notifying you that it has determined that the proposed Minimal Impact Exploration Permit Application for Cibolas Resource's North Cebolleta Exploration Project, Permit Tracking No. CI019EM is administratively complete. MMD will now distribute the application to other reviewing state, federal and tribal agencies to begin technically reviewing the application pursuant to 19.10.3.302 (G) NMAC. MMD will reach out to schedule a site visit. If you have any questions, please contact me at 505-216-8945 or via e-mail at: Samantha.rynas@emnrd.nm.gov.

Sincerely,

Samantha Rynas, Permit Lead
Mining Act Reclamation Program (MARF)/MMD
