Thanks for the PDF attachment, every screen works as expected in that file on my phone, therefore I have no understanding of what is unique to the website edition of it.

I have a comment on the estimated revenue impact numbers. Do not wait 5 years to evaluate the impact of the changes, rather, evaluate the 1st year revenue actual numbers early to see if you're on track with assumptions and goals. I would be most interested to see if the non-resident winter season annual camping pass \$600 policy produces more or less revenue. I was a non-resident camper 2 seasons consecutive but will be in Arizona long-term visitors area on BLM land this upcoming winter, and I'm simply curious whether or not the policy change to \$600 works out there as hoped. If a review is done in 1 year, please publish the information.
